      - Shared buying power to facilitate discount
      - Knowledge sharing visits
      - Social occasions
    - Initial superficial discussion around best practices, to be continued
      - Regulations
        - Crop rotation
        - Disused sites to re-allocate
      - Layout

## **2. Next steps**

- Identify site
- Identify any restrictions from landlord
- Establish formal organizational structure
  - Finalize scheme name
  - Register organization
  - Elect committee
  - Elect office bearers
  - Adopt constitution
- Site layout plan
  - To bear in mind potential expansion, both in near term and in future
- Cost initial setup - *see point 2.a. below*
- Running cost
  - Site rental to landlord
  - Operating costs
  - Plot rental cost to members
- Fund raising
  - Determine plot rental fee and what that would include
  - Identify potential funders
  - Write funding proposals
  - Identify other fundraising activities
- Develop rules and regulations based on identified best practices and in line with any restrictions from landlord
- Regular workshops by experts

### **2.a. Initial setup to cost**

- Poly tunnel
- Soil analysis
- 12 plots of 20m x 15m
  - Boundaries
  - Raised beds
  - Drainage
- Perimeter fencing
- Water supply
- Electricity supply
- Shipping container / shed for storage
- Porta-loo / composting toilet
- Communal area
  - Benches
  - Notice board
  - Barbeque area
- Access / Parking
- Cooperative buying
  - Sheds
  - Communal tools
  - Seeds / plants
  - Composting
  - Pest control
  - Learning resources

**2.b. Potential future development**

- Proper toilets
- Additional plots
- Additional poly tunnels
- Soil feeding
- Bee keeping
- Communal area for socializing and potential market days
- Learning visits, workshops by experts
- Market days
- Produce sales
